

Company Profile

About E.P.X.

- Overnight express delivery
- 100% SA owned company
- We service over 500 towns in SA
- World class operating facility
- Over 700 employees
- Own fleet
- Tailor-made delivery solutions
- Pioneering tracking technology

E.P.X. Courier Service has been specialising in overnight deliveries since 1999 and has the largest footprint in express deliveries in S.A's outlying areas. We offer our own transport fleet, drivers with extensive experience and a management team that believes in personal service.

Our Moto is "It's All About You!" which means our focus is always on our team and our clients.

*T's & C's apply

Customer satisfaction is our ultimate goal.

To provide a world class express delivery service.

Our Vision

3

4

5

We are committed to providing our clients with leading innovative technology.

To expand our brand further into Southern Africa and become the market leader in our niche industry.

To extend our product offering and our footprint across industries.

Our Mission

To offer
value driven
solutions to our
customers is a
personal mission
for us.

Service excellence,
happy staff and
customers are
our top
priorities!

Our Values

- **Respect:** colleagues, customers, suppliers, environment, rules and working principles.
- **Proactivity:** our capacity to anticipate your needs.
- **Innovation:** to prepare for the future, we solve problems and bring our customers new solutions that provide value.

Communication: relationships are the link between people. Building constructive relationships between us and with our customers are the basis of our success.

Team Spirit: Growing our business and your business together.

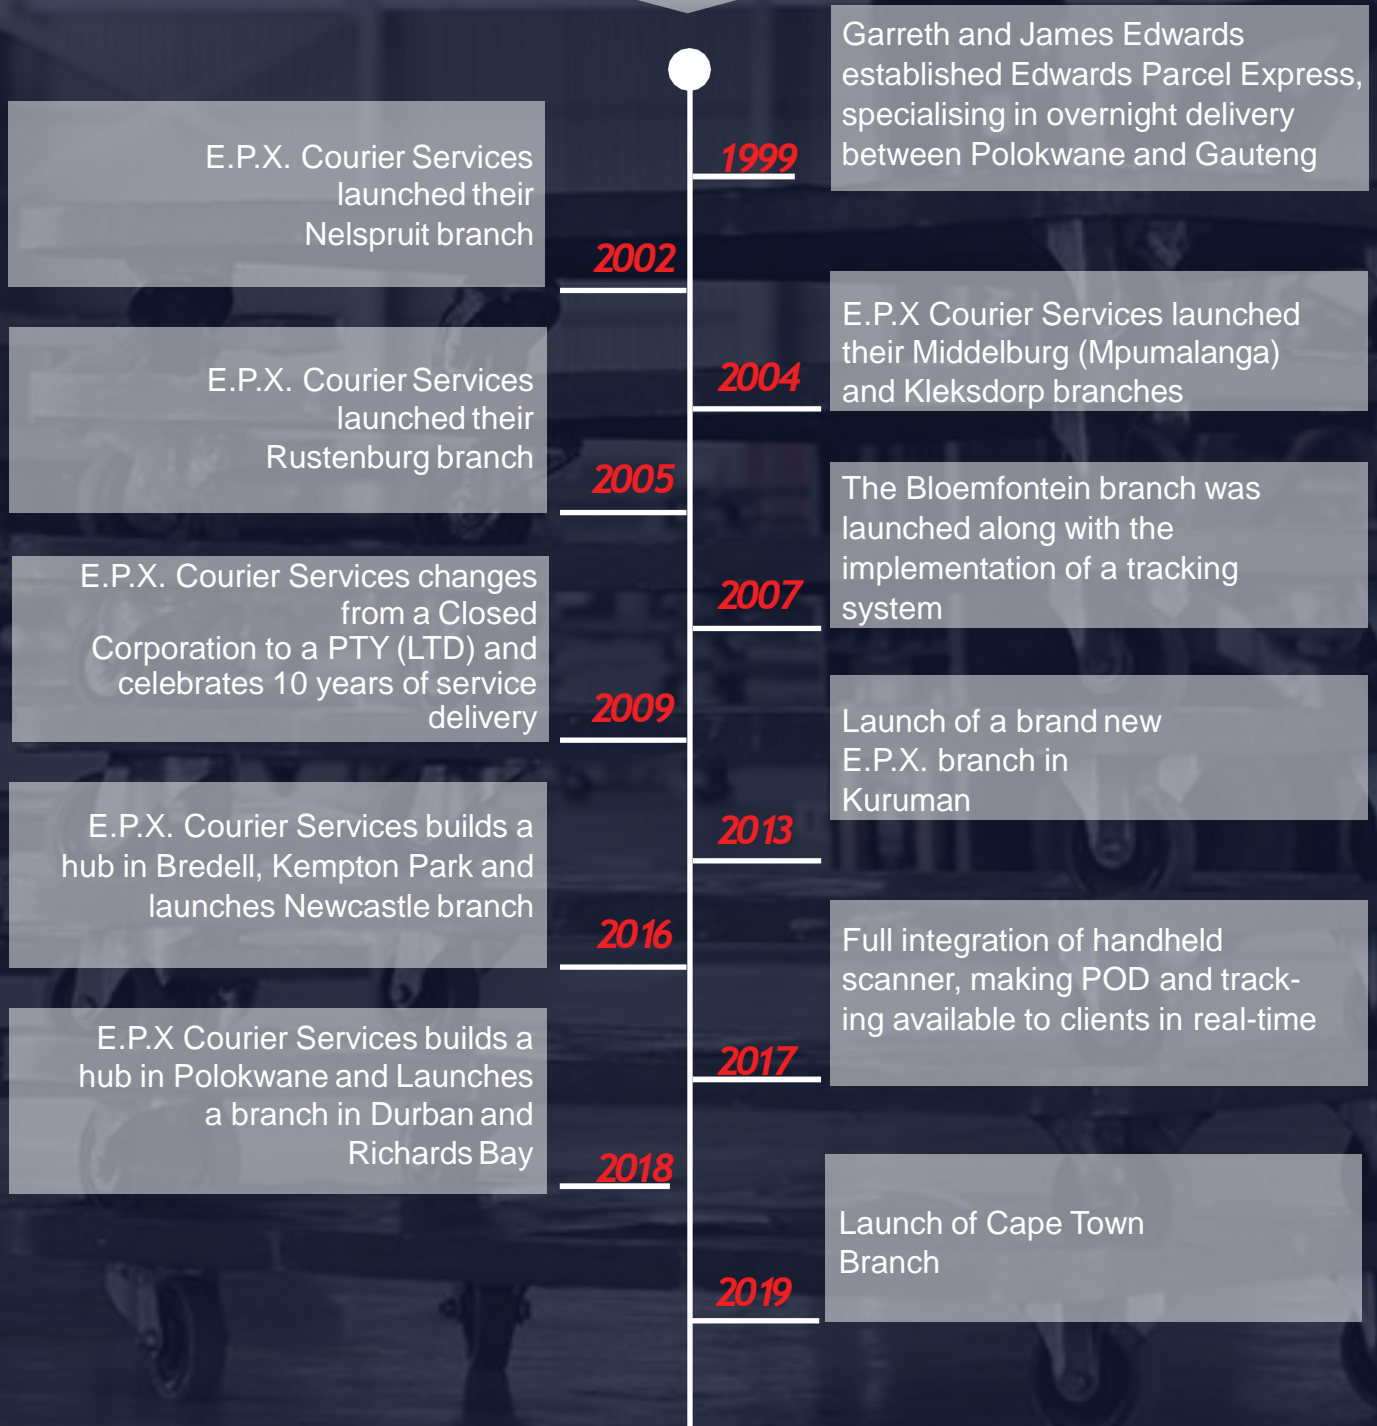

Continuous learning: learning, share information & knowledge, giving everyone an opportunity to grow. What we have learned years ago will become obsolete, evolving with the market is vital.

- **Full integration with clients systems**, which means information is available to client in real-time. Because the systems are fully integrated E.P.X. Courier Services gets the information as business happens and deliveries can be made accordingly. This dilutes the possibility of human error.
- Because of the integrated systems E.P.X. Courier Services can do **deliveries on clients' invoices.**
- **POD's scanned** with handheld scanners which means they are available to client as parcel gets delivered.
